That is precisely the challenge of doing business. When you do call in external expertise, you therefore expect a professional who's well versed in business. Your business.

95 years name

Blömer accountants en adviseurs is an independent, leading, medium sized firm of accountants in the Utrecht region. For 95 years, we have advised companies and entrepreneurs in SMEs, independent professionals and non-profit institutions. With more than 1,000 clients and around 100 staff, we have grown to become one of the larger, independent firms of accountants in the Netherlands. In those 95 years, we have developed into a trusted partner for our clients, a reliable and expert adviser with whom a long-standing, personal relationship is often formed. We combine that personal approach with a quality standard which matches up to that of the large, nationally operating organisations.

The services offered by Blömer are well rooted in the field of accountancy and fiscality. We have a broad and varied clientele and we do not aim at specific branches. Audit

An independent and expert opinion on the reliability of the annual accounts offers social security. You therefore require a critical partner to monitor your accounts. Someone who not only checks your figures but especially also interprets and translates them into your business.

The Team Audit professionals can help and advise you in this. They guarantee an audit that not only culminates in an auditor's statement but also in an effective consultation with valuable information on the interaction between your accounts, corporate processes and strategy.

Blömer has the certification required to carry out statutory audits. This certification was awarded by the AFM Authority for Financial Markets.

Accountancy

Whether you are a starter or an experienced entrepreneur, your annual accounts are an important source of information for you. They give a reliable picture of your company, allowing you to take responsible decisions for the future.

Our advisers have the expertise to formulate your annual accounts on your behalf. Of course

the process does not stop there. In a personal consultation, we discuss the figures and developments with you, analyse them and look at the estimates, budgets, prospects and future steps for both the short and long term.

You then know exactly where you stand, and can steer your company in the right direction.

Sustainable personal relationships with our clients are important to us
